**THE BIOLOGY EXAM:** STUDENTS in an advanced college Biology Class were taking their Mid-Term Exam. Their last question was: "Name seven advantages of Mother's Milk!" The question was worth 70 points, or none at all. One student was hard put to think of 7 advantages. He wrote: 1) It is perfect formula for the child. 2) It provides several immunities for the child. 3) It is always served at the right temperature. 4) It is inexpensive. 5) It bonds the child to the mother, and vice-versa. 6) It is always available as needed. And then the student was absolutely stuck...he thought and thought, and finally in desperation as the allotted time was running out and the bell was about to ring signifying that the time allotted for the test would be over, he quickly scribbled down: 7) It comes in two attractive containers, and it's high enough off of the ground to where the cat can't get at it. *He got an "A".*

**BIRTH CONTROL FOR GRANDMA:** A doctor Retired after 40 years and turned his practice over to a younger Dr. One of the patients, an 80 year old woman called the practice for a routine check up, and the new Dr. asked her to bring in a list of her prescription medicines. As he went over the list his eyes got big when he saw that the old Grandma had a prescription for Birth Control pills. "Mrs Smith," he said sorta chuckling, "You do realize this is a prescription for Birth Control Pills?" "Yes I do" she said, "They help me sleep at night."

"Mrs Smith, I assure you that there is nothing in these pills that could possibly help you to sleep at night!" exclaimed the new Doc..

The old Grandma reached over and patted the Doc on the knee and said, "Yes, Dearie, I know that, but every morning I grind one of 'em up and mix it into the glass of orange juice that my 16 year old grand-daughter drinks, SO, believe me, when I say it helps me sleep at night!"
